

Great Features of our Grazing Scheme

Specialists in carryover cows, weaners, heifers, bull leasing and winter grazing.

We only graze in TB free areas

No hassles with third party involvement.

All animals are regularly monitored and weighed and reports are sent to the owner.

Target weights are set so the grazier is fully aware of what is expected.

Payments are based on weight gain, so it works as an incentive scheme for mutual benefit to owner and grazier.

Monthly automatic payment help spread the costs.

Transport can be arranged at a reasonable rate.

A legal contract ensures that both parties are clearly defined.

Welcome to New Clients

Features of Dairy Grazing

Technology Update

Welcome to our first edition of the Dairy Grazing Newsletter.

Firstly, I would like to welcome all our new clients to Dairy Grazing Ltd. We consider all of our graziers to be top farmers and professional who care for and grow your animals as well as they can. The regular weighing and monitoring we do is paramount to ensuring success.

Don't forget to secure your grazing for November/December to April next year as we have limited farms available.

Enquire now for grazing from November until the end of April 2010

Administration

We have a new administrator, Julie Grant, who will handle any office/account queries. Also, Julie will be following up on getting those contracts signed and returned. Please do not hesitate to contact Julie on 07 848 2192 or grazit@xtra.co.nz.

Technology Update

We have a new electronic weight transfer system up and running which allows for direct transfer of weight data into our grazing programme. This allows for more accurate and quicker reports.

There have been some issues regarding electronic tagging, these problems have been resolved.

We have installed a new database programme and this will allow us to provide you with immediate updates.
